EDUCATION

University of Southern California

Los Angeles, CA

Master of Science Financial Engineering

Jan 2025 - Aug 2026

Relevant Coursework: Financial Engineering, Machine Learning, Stochastic Processes, Probability, Optimization, Math for Financial Engineering, Quantitative Investing, Financial Risk Management, Mortgages & Mortgage Backed Securities, Corporate Finance

University of San Francisco

San Francisco, CA

Bachelor of Science Economics, Honors

Aug 2021 - May 2024

Minor in English Literature

EXPERIENCE

Galliot Capital Advisors

Beverly Hills, CA

Investment Analyst Intern

Sep 2024 - Dec 2024

- Authored a full 30-page due diligence report on a seed-stage startup raising \$2M by researching market fit, analyzing financials, and long-term scalability; directly informing internal investment decisions
- Built DCF and ARIMA models in Excel and Python, benchmarking public comps to project revenue growth and inform valuation strategy for \$3-5M follow-on round
- Profiled 700+ VC/PE buyers via PitchBook and proprietary screens, narrowing to 2-3 strategic partners for potential acquisition

Self-Employed

San Francisco, CA

Freelance Academic Consultant

Jan 2023 - May 2024

- Tutored 10+ undergraduates in Economics, Econometrics, Finance, and English, improving performance across semesters
- Provided end-to-end support on an Econometrics capstone, enabling on-time degree completion
- Edited and structured 15+ academic essays to strengthen clarity, analysis, and academic voice

Courtesy Electric Wholesale

Pasadena, CA

Summer Junior Accountant

June 2022 - Aug 2022

- Analyzed inventory and sales data using Excel to adjust pricing based on margins, supply trends, and competitor benchmarks
- Managed accounts receivable/payable in QuickBooks, ensuring accurate cash flow and recordkeeping
- Processed invoices and expense reports to streamline vendor payments and enhance operational efficiency

LEADERSHIP AND INVOLVEMENT

Chess Club

University of San Francisco

Member

Jan 2022 - May 2024

- Competed in internal tournaments, placing top 3
- Ranked ~1270 in Chess.com rapid ratings, demonstrating high-level strategic thinking and sustained focus in competitive play
- Led peer workshops and strategy sessions to help new members improve gameplay and tournament performance

PROJECTS

Regime-Aware Model Risk Visualization

Python | Logistic Regression | GMM | Time-Series

- Built a regime-aware classification framework for SPY daily direction using confidence calibration and volatility regimes
- Evaluated out-of-sample performance with accuracy, Brier score, and regime-conditioned Sharpe ratios

Spatial Econometric Modeling of Housing Market Dynamics

Stata | Python | SAR / GS2SLS / MLE

- Estimated spatial autoregressive housing price models with clustered geographic dependence and spatial lags
- Achieved strong predictive fit (R^2 0.89) and validated spatial spillover effects

Additional projects and research available at hannahattar.com

SKILLS

Programming & Data: Python (pandas, NumPy, scikit-learn, statsmodels, Matplotlib / seaborn, SciPy, arch), R, Stata, Excel

Quantitative & ML: Linear regression / OLS, Logistic regression, time-series modeling (ARIMA/GARCH), Monte Carlo, tree-based ensembles, Gaussian mixture models, Hidden Markov Models, PCA, Neural Networks

Languages: French (Bilingual), Spanish (Professional), Arabic (Conversational)
